

Sabrina S. Watkins, BSCE, MBA

Sabrina Watkins serves on the boards of Future 500, Presidio Graduate School and Balsam Mountain Trust. She consults directly with companies to deliver stronger sustainability results with a focus on investor priorities.

Ms. Watkins retired from ConocoPhillips in 2017 after a decade as global head of sustainability, with responsibility for corporate policies, implementation strategies, results, and reporting. During her tenure, and with board, executive, and investor engagement, the company reduced over 7 million annual tonnes of greenhouse gas emissions, saved over \$100 million and reduced shareholder concerns.

Ms. Watkins' career in the energy industry began in engineering for deepwater operations in the Gulf of Mexico. During her 37 years in the industry, she has held engineering to senior management roles in regional assets, production, drilling, strategic planning and technology. In 2012, she was named to the Industrial Safety and Health News "Power 101" list of influential leaders in sustainability.

Her recent public speaking has addressed sustainability performance, carbon asset risk, socially responsible investor (SRI) engagement, fossil fuel divestment, and reporting transparency.

Ms. Watkins earned a B.S. in Civil Engineering from Lehigh University (1981) and an MBA in Sustainable Business from Bainbridge Graduate Institute/ Presidio Graduate School (2007).
